Certificate of Stability and Safety of the School

The structure design of School building has been inspected, checked and found to be in order. The design is in accordance with the provision of the national Building code and the relevant bureau of India Standard codes (with latest amendments) including bureau standard code for structures resistant to earthquakes. The local soil conditions, its load bearing capacity and the underground water table etc. have been kept in view while designing the same. The structure design of the building is considered Safe against seismic, wind force and is quite safe for running the School.
